

ENVIROGRAF® PRODUCT 109

INTUMESCENT GLAZING CHANNELS

DESCRIPTION

Envirograf® PGC is a rigid white plastic glazing channel with intumescent fire protection available in heights of 10mm (30 minutes) and 15mm (60 minutes).

USE

Designed for areas where noise and vibration are common. The rubber channel absorbs sound and accommodates small movements more efficiently than standard glazing fixtures, and it offers fire protection. Use with the intumescent for non-insulated glass such as 6 mm wired, ceramic, or laminated glass; or without the intumescent on insulated glass.

PERFORMANCE

This product has been included in tests in accordance with the general principles and criteria of BS476 Part 22 (1987), achieving 40 minutes and 66 minutes of fire protection (10mm high and 22mm high respectively).
