

ENVIROGRAF® PRODUCT 63

INTUMESCENT CEMENT FILLER

DESCRIPTION

A ready-mixed intumescent cement filler that sets hard, like normal cement, but it does not crack. It expands in a fire. Supplied in 310ml tubes and 1 litre, 2½ litre, and 5 litre containers.

USE

Ideal for application around pipes, services, and behind door frames, for filling-in small holes or cracks, and as a facing top coat over Envirograf® Product 44 (PVE/A foam). Also used to fill cracks in ceilings and walls before Envirograf® Product 84 (S/Paper) is applied. Applied by trowel or spatula. When dry, it becomes hard like cement and it can be painted over.

PERFORMANCE

This product has been used in conjunction with PVE/A foam around cables and pipes, in a fire resistance test employing the general procedures and criteria of BS476 Part 22 (1987), achieving an integrity of 130 minutes.
