

ENVIROGRAF® PRODUCT 74

ACOUSTIC, DRAUGHT, SMOKE, AND WEATHER THRESHOLD SEALS

DESCRIPTION

A 7mm deep x 12mm high x 2m long aluminium holder (ES/TB) in a self-coloured finish or painted, or a plastic self-coloured holder (ES/TB/P), fitted with a fixed brush seal. The brush can be supplied in fixed depths of 19mm, 25mm, 32mm, 50mm, 75mm, or 100mm. Another version is a 2.1m long white plastic holder (ES/ATB) that permits three press-fit adjustments of the position of the brush seal, and the holder is supplied with either 25mm or 50mm brush depth.

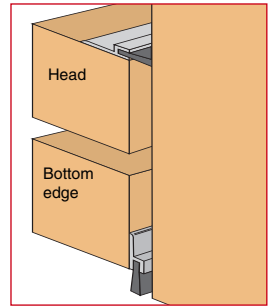

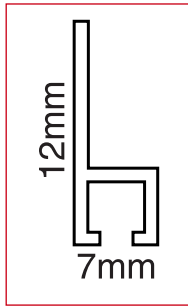

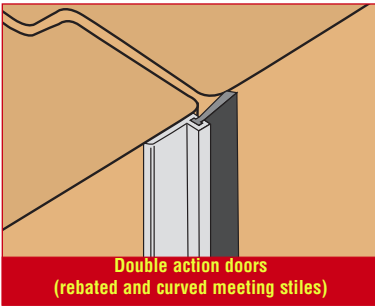

USE

For sealing the bottom of doors, the back edge of sliding doors, between a door and wall, and down the centre stiles of double doors.
